RE: Surplus Streetlight Poles

In the event that RMU has streetlight poles that are damaged or otherwise no longer usable by RMU they are available for sale on a first come, first served, as available basis.

Aluminum, galvanized or other metals poles will be sold for the following unit prices:

1. 20 feet or less in length: \$50 per each
2. 20 to 30 feet in length: \$75 per each
3. Over 30 feet in length: \$100 per each

All poles sold shall be in the condition as-is and RMU will not provide any warranty or guarantee of condition of the pole purchased. All sales will be final with no returns allowed.

The purchaser is required to transport the pole off RMU's site. The purchaser will be responsible for payment using a payment method allowed by RMU before removal of material as allowed.
